DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Tal et al. (US 5868785). Tal et al. disclose a method of ratcheting the closure of a pair of jaws of an endoscopic grasping tool surgical instrument comprising the steps of: providing a pivotally mounted actuator handle (443) operatively coupled to the jaws, the handle having a drive head (figure 32) which moves distally to effect jaw closure and said drive head having teeth (464) formed thereon; and providing a pawl (462) positioned for engagement with the teeth so as to prevent proximal movement of the drive head after it has moved distally.

Response to Arguments

Applicant's arguments filed 4/08/05 have been fully considered but they are not persuasive. Applicant argues that it would not be reasonable for the entire handle to be considered the drive head. Examiner would like to point out that the arcuate surface 466, which is provided on the thumb handle 441, is considered the drive head.

Therefore a portion of the handle is considered the drive head and not the entire handle as asserted by Applicant.

Allowable Subject Matter

Claims 1-5 and 8-12 are allowed.

Claim 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
